

G1-38X

High precision & stability of magnetic compensator

- High precision & stability of magnetic compensator
- Key components for imported materials
- Uniquely 38X
- Objective aperture 46mm.
- Accuracy without micrometer $\leq 0.7\text{mm}$.
- IPX6 water protection

Specification :

Technical	G1-38X
1 Km Error	38X
Magnification	46 mm.
Objective aperture	$\leq 0.7\text{mm}$.
Resolution	$\leq 3.0''$
Angle of View	$1^\circ 20'$
Image	Erect
Reticle	Wedge
Min View Distance	$\leq 0.3\text{m}$.
View Distance Error	$\leq \pm 0.4\%$
Focusing Error	$\leq 0.5\text{m}$.
Compensator	Magnetic damper
Working Range	$\leq 15'$
Compensating Error	$\leq 0.2'$
Setting Accuracy	$\leq 0.3'$
Setting Time	$\leq 2\text{s}$
Bubble	$8'/2\text{mm}$.
Scale	1' or 1 Gon
Water Impervious	IPX6
Accessories	Manual, Plumb bob, Allen Key, Adjusting pin, Downy cloth, Siccative each one
Weight	N,W:2.0Kg. G.w:3.0kg.
Package	1 piece in 1 plastic carton, 4 pieces in 1 carton

Magnification 38X	Water Impervious IP X6	Caliber Ø46mm	1 km Error $\leq 0.5 \text{ mm}$
Working Range $\geq \pm 15'$	Min view Distance 1 M	Resolution $\leq 3''$
